**Township Meeting Notes:**

- We have received multiple calls on the changes in the assessments because of the revised assessment notices that were mailed. These were only sent to properties that our office made a direct change to OR if you have farmland.
- Our Township also received a multiplier of 1.0640 across the board for residential properties. This is in addition to any changes that were made in the office. The sales in the Township have been MUCH higher than our assessments and we have been making changes to adjust those neighborhoods as needed. I have been talking with many realtors on this and they said there are many factors. Some of them being the lack of foreclosures, people wanting out of the city, the "farm homestead" life, no need to worry about the schools, and interest rates.
- Speaking of notices, you can file an appeal through September 14<sup>th</sup> with the Will County Board of Review. The website is [www.willcountysoa.com](http://www.willcountysoa.com) and everything is available online.
- The field staff has been out measuring and catching up on all of fieldwork.
- Fax machine update.
