INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Crete Township
Crete, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Crete Township, Crete, Illinois (the Township) as of and for the year ended March 31, 2017, and the related notes to financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Township's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Crete Township, Crete, Illinois, as of March 31, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Standards Accounting Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in the appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole. The supplementary information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on this.

GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

For the Year Ended March 31, 2017

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ (177,912)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures; however, they are capitalized and depreciated in the statement of activities	1,018,890
Some expenses in the statement of activities (e.g., depreciation) do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds	(200,850)
The change in the Illinois Municipal Retirement Fund net pension liability and deferred outflows and inflows of resources is not a source or use of a financial resources	(15,664)
The repayment of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of activities	27,809
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds Increase in compensated absences	<u>(8,857)</u>
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	<u><u>\$ 643,416</u></u>

See accompanying notes to financial statements.

**CRETE TOWNSHIP
CRETE, ILLINOIS**

NOTES TO FINANCIAL STATEMENTS

March 31, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Reporting Entity

Crete Township, (the Township) is duly organized and existing under the provisions of the laws of the State of Illinois, and is operating under the provisions of the Township Code of the State of Illinois. The Township was incorporated on April 2, 1850. The Township is governed by an elected Board of a Township Supervisor and four Township Trustees. The Township includes all funds of its governmental operations based on financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will and fiscal dependency. The accompanying financial statements include only those funds and account groups of the Township, as there are no other organizations for which it has financial accountability.

The accounting policies and financial statements of the Township conform to accounting principles generally accepted in the United States of America and applicable to governments (herein referred to generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the more significant policies.

b. Fund Accounting

The accounts of the Township are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures or expenses as appropriate. Government resources are allocated to and accounted for individual funds based on the purposes for which they are to be spent and the means by which spending activities are controlled. Funds are classified into the following category: governmental.

Governmental funds are used to account for the Township's general activities. The General Town Fund is the primary operating fund; accounting for all financial resources not accounted for in another fund. Special revenue funds account for revenue sources that are legally restricted or committed for specific purposes.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the Township. The effect of material interfund activity has been eliminated from these statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, if any, which rely to a significant extent on fees and charges for support. The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The Township reports the following major governmental funds:

The General Town Fund is the Township's primary operating fund. It accounts for all financial resources of the Township, except those accounted for in another fund.

The Road and Bridge Fund, a special revenue fund, accounts for the revenues and expenditures restricted to financing the maintenance and construction of the Township's roads and bridges.

The General Assistance Fund, a special revenue fund, is used to account for the tax levy revenue and the related home relief and general assistance program. The General Assistance Fund does not meet the criteria for major fund presentation; however, the Township has elected to report it as such.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation
(Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Township.

The Township reports unearned and deferred/unavailable revenue on its financial statements. Deferred/unavailable revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period, under the modified accrual basis of accounting. Unearned revenue arises when a revenue is measurable but not earned under the accrual basis of accounting. Unearned revenues also arise when resources are received by the Township before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Township has a legal claim to the resources, the liability and deferred inflows of resource for unearned and deferred/unavailable revenue are removed from the financial statements and revenue is recognized.

e. Cash and Investments

The Township's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased and all investments of the pension trust funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The township does not have investments valued at fair value.

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “interfund receivables/payables” (the current portion of interfund loans), or “advances to/from other funds” (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

Advances between funds are offset by a nonspendable fund balance account to indicate that they are not available for appropriation and are not expendable available resources.

g. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items. Prepaid items are recorded as expenditures when consumed rather than when purchased.

h. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets, are reported in the government-wide financial statements. The Township defines capital assets as assets with an initial cost of more than \$25,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost, or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset, or materially extend assets’ lives, are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of governmental activities is not capitalized.

Property, plant and equipment of the primary government are depreciated using the straight-line method, over the following estimated useful lives:

Assets	Years
Buildings	50
Improvements	20
Equipment	5-20
Infrastructure - roads	40
Infrastructure - other	30-50

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Principal payments on long-term debt are recorded as expenditures in the fund financial statements but as a reduction of a liability on the government-wide statements.

j. Fund Balance/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the Township.

Committed fund balance, if any, is constrained by formal actions of the Township's Board of Trustees, which is considered the Township's highest level of decision-making authority. Formal actions include ordinances approved by the Township's Board of Trustees. Assigned fund balance represents amounts constrained by the Township's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Township's Supervisor. Any residual fund balance of the General Town Fund and any deficit fund balances in other governmental funds are reported as unassigned.

The Township's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the Township considers committed funds to be expended first followed by assigned and then unassigned funds.

In the government-wide financial statements, restricted net positions are legally restricted by outside parties for a specific purpose. Net investment in capital assets, represents the book value of capital assets, less any long-term debt principal outstanding issued to construct or acquire the capital assets.

k. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Deferred Outflows/Inflows of Resources (Continued)

(expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

l. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Township's investment policy authorizes the Township to invest in any investment authorized by statutes. Statutes authorize the Township to invest in the following:

- Bonds, notes, certificates of indebtedness, Treasury bills or other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest.
- Bonds, notes, debentures or similar obligations of the United States of America or its agencies.
- Savings accounts, certificates of deposit, time accounts or other investments constituting direct obligations of a bank as defined by the Illinois Banking Act.
- Securities legally issuable by savings and loan associations incorporated under the laws of any state of the United States of America. Share accounts and share certificates of a credit union chartered under the laws of the State of Illinois or United States of America, provided the principal office of the credit union is located within the State of Illinois. Short-term discount obligations of the Federal National Mortgage Association (FNMA). Investments may be made only in financial institutions which are insured by either the Federal Deposit Insurance Corporation or other applicable law for credit unions.

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

- Short-term obligations (maturing within 180 days of date of purchase) of corporations with assets exceeding \$500,000,000. Such obligations must be rated, at the time of purchase, at one of the three highest classifications established by at least two standard rating services. This type of obligation is limited to one-third of the Township's funds available for investment and cannot exceed 10% of the corporation's outstanding obligation.
- Money market mutual funds, registered under the Investment Company Act of 1940, which invest only in bonds, notes, certificates of indebtedness, Treasury bills and other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest and agrees to repurchase such obligations.
- Repurchase agreements of government securities subject to the Government Securities Act of 1986.
- Illinois Funds, Illinois Institutional Investment Trust and the Illinois Metropolitan Investment Fund. The Illinois Treasurer's Office has regulatory oversight for Illinois Funds.

a. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Township's deposits may not be returned to it. The Township's investment policy requires all deposits with financial institutions in excess of federal depository insurance be collateralized with collateral held by the Federal Reserve Bank, the Township's agent or by the trust department or escrow agent of the pledging institution, as evidenced by a written collateral agreement.

b. Investments

Investments with maturities of one year or more from the date of purchase are stated at fair value based on quoted market prices. Investments with maturities of one year or less from the date of purchase are stated at amortized cost. All other investments, which do not consider market rates, are stated at cost. Investment income has been allocated to each fund based on investments held by the fund.

The Township limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in short-term deposits.

2. DEPOSITS AND INVESTMENTS (Continued)

b. Investments (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Township limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market. Unless matched to a specific cash flow, the Township does not invest operating funds in securities maturing more than three years from the date of purchase.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Township will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Township's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party custodian approved by the Township Supervisor and evidenced by safekeeping receipts.

Concentration of credit risk is the risk that the Township has too high a percentage of their investments invested in one type of investment. The Township's investment policy requires diversification of investment to avoid unreasonable risk.

3. PROPERTY TAX CALENDAR

The following information gives significant dates on the property tax calendar of the Township:

- The property tax lien date is January 1.
- Property taxes are due to the County Collector in two installments, June 1 and September 1.
- Property taxes for 2016 were levied in December 2016 and are normally received monthly beginning in June and generally ending by November 2017.
- The 2017 tax levy has not been recorded as a receivable at March 31, 2017, as the tax attached as a lien on property as of January 1, 2017; however, the tax will not be levied until December 2017 and, accordingly, is not measurable at March 31, 2017.

5. LONG-TERM DEBT (Continued)

a. Changes in Long-Term Liabilities (Continued)

The notes payable are retired by the Road and Bridge Fund. The compensated absences and net pension liability have historically been repaid by the General Town and Road and Bridge Funds.

b. Debt Service Requirements to Maturity

The annual requirements to amortize to maturity the notes payable outstanding as of March 31, 2017 are as follows:

Year Ending March 31,	Principal	Interest
2018	\$ 28,569	\$ 1,239
2019	29,350	457
TOTAL	\$ 57,919	\$ 1,696

c. Notes Payable

The assets acquired through notes payable for governmental activities are as follows:

Equipment	\$ 112,797
Less accumulated depreciation	<u>(33,839)</u>
TOTAL	<u>\$ 78,958</u>

6. RISK MANAGEMENT

The Township is exposed to various risks of loss related to litigation; theft; destruction of assets; errors; injuries of employees; or natural disasters. The Township maintains coverage for its general liability; property; casualty; workers' compensation; and health through its participation in a pool.

6. RISK MANAGEMENT (Continued)

The Township is a member of the Town Organization Intergovernmental Risk Management Agency (TOIRMA). TOIRMA is a public entity risk pool operating as a common risk management and insurance program for member townships in Illinois. The Township pays an annual premium to TOIRMA for its general insurance coverage.

The agreement for the formation of TOIRMA provides that TOIRMA will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$5,000,000 for general liability and \$3,000,000 for workers' compensation for each insured event. In the event that member premiums in any claim year are not sufficient to cover claims incurred during that period, each participant in the pool would be assessed an additional premium to cover such losses. The Township is not aware of any additional premiums due to TOIRMA for prior claim years at March 31, 2017. Settled claims have not exceeded coverage for the current or prior two fiscal years.

The Township participates in the Intergovernmental Personnel Benefit Cooperative (IPBC) as a member of the Eastern Will County Benefit Cooperative Subpool. IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasi governmental and nonprofit public service entities.

IPBC receives, processes and pays such claims as may come within the benefit program of each member. Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are two officers, a Benefit Administrator and a Treasurer. The Township does not exercise any control over the activities of IPBC beyond its representation on the Board of Directors.

7. EMPLOYEE RETIREMENT SYSTEMS

The Township contributes to one defined benefit pension plan, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system. The benefits, benefit levels, employee contributions and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Illinois Municipal Retirement Fund

Plan Administration (Continued)

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2016 (plan measurement date), IMRF membership consisted of:

Inactive employees or their beneficiaries	
currently receiving benefits	12
Inactive employees entitled to but not yet receiving benefits	3
Active employees	<u>15</u>
 TOTAL	 <u><u>30</u></u>

Benefits Provided

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all are established by state statute.

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Illinois Municipal Retirement Fund (Continued)

Contributions

Participating members are required to contribute 4.50% of their annual salary to IMRF. The Township is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution for the year ended December 31, 2016 was 12.52% of covered payroll.

Actuarial Assumptions

The Township's net pension liability was measured as of December 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2016
Actuarial cost method	Entry-age normal
Assumptions	
Inflation	2.75%
Salary increases	3.75% to 14.50%
Interest rate	7.50%
Cost of living adjustments	3.00%
Asset valuation method	Market value

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Illinois Municipal Retirement Fund (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Township contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Changes in the Net Pension Liability

	(a) Total Pension Liability	(b) Plan Fiduciary Net Position	(a) - (b) Net Pension Liability
BALANCES AT JANUARY 1, 2016	\$ 3,044,098	\$ 2,604,097	\$ 440,001

NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Illinois Municipal Retirement Fund (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended March 31, 2017, the Township recognized pension expense of \$83,519.

At March 31, 2017, the Township reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ 190,602
Changes in assumption	1,766	7,878
Net difference between projected and actual earnings on pension plan investments	120,512	-
Contributions made subsequent to the measurement date	17,430	-
	<hr/>	<hr/>
TOTAL	<u>\$ 139,708</u>	<u>\$ 198,480</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

<u>Year Ending March 31,</u>	
2018	\$ (52,523)
2019	(50,372)
2020	24,860
2021	1,833
2022	-
Thereafter	-
	<hr/>
TOTAL	<u>\$ (76,202)</u>

CRETE TOWNSHIP
CRETE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Illinois Municipal Retirement Fund (Continued)

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Township calculated using the discount rate of 7.5% as well as what the Township's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5%) or 1 percentage point higher (8.5%) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Net pension liability	\$ 815,858	\$ 420,299	\$ 97,324

8. OTHER POSTEMPLOYMENT BENEFITS

The Township has evaluated its potential other postemployment benefits liability. The Township provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the Township are required to pay 100% of the current premium. However, no former employees have chosen to stay in the Township's health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Additionally, the Township had no former employees for whom the Township was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the Township has not recorded any postemployment benefit liability as of March 31, 2017.

CRETE, ILLINOIS**

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

March 31, 2017

BUDGET

The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Township Supervisor submits to the Township Board of Trustees a proposed combined budget and appropriation for the fiscal year. The budget includes proposed expenditures and the means of financing them for all general and special revenue funds.
2. Public hearings are conducted to obtain taxpayer comments.
3. The budget is legally enacted through passage of an ordinance.
4. The budget may be amended by the Township Board of Trustees through the same process used to adopt the original budget.
5. Expenditures may not legally exceed budgeted appropriations at the function level. All annual appropriations lapse at fiscal year end.

Township budgets are prepared on a basis of accounting consistent with GAAP. There were no budget amendments during the year.

The Township Retirement Fund's actual expenditures exceeded the budgeted expenditures by \$884.
